CORRECTIONS

Intussusception among Infants Given an Oral Rotavirus Vaccine (February 22, 2001;344:564-72). On page 564, in the list of authors "John R. Livingood, M.D." should have read, "John R. Livengood, M.D." On page 569, the sentence that begins on line 17 of the left-hand column should have read, "According to the results of our case-series analysis, 732 additional cases attributable to RRV-TV," not "attributable to *intussusception*," as printed. On page 570, beginning seven lines from the bottom of the left-hand column, the sentences should have read, "Wild human rotaviruses are detected uncommonly in cases of intussusception.^{25,27} Rotaviruses elaborate an enterotoxin that has age-dependent and dose-dependent functions.²⁸ In mice infected with RRV (rhesus rotavirus), secretion of fluid and electrolytes involves activation of the enteric nervous system,²⁹ which is also integral to peristalsis.³⁰" Also on page 570, on line 7 of the Appendix, "C. Robmann" should have read, "C. Rebmann." The following names should be added to the Appendix: "*Epidemic Intelligence Service Officers and Preventive Medicine Residents of the CDC*: M. Cooper (Texas); and "*Commissioned Corps, Public Health Advisors, Fellows, Epidemiologists, and Other Staff at the CDC*: L. Anderson, B. Barylska, G. Buckett, C. Danovaro, K. Galil, J. Gilbert, P. Haber, R. Jones, H. McKnight, D. Miller, M. Mitchell, and S. Weems." On page 571, the first author's last name in reference 16 should have read, "Zanardi," not "Zanard," as printed.

Waldenström's Macroglobulinemia (March 15, 2001;344:816). On line 6, the IgM level should have read, "7.7 g per deciliter," not "7.7 g per liter," as printed.
