

CORRECTIONS

Thyroiditis (June 26, 2003;348:2646-55). On page 2651, lines 6 to 7 of the first full paragraph should have read "with ratios of T4 to T3 of greater than 20," rather than "less than 20," as printed.

Cardiovascular Disease (July 3, 2003;349:60-72). In Table 1 on page 62, the values for the approximate plasma cholesterol levels for familial hypercholesterolemia should have been 650 mg per deciliter for homozygous and 300 mg per deciliter for heterozygous, rather than the reverse, as printed; and the values for familial ligand-defective apolipoprotein B-100 should have been 325 mg per deciliter for homozygous and 275 mg per deciliter for heterozygous, rather than the reverse, as printed.

NOTICES

Notices submitted for publication should contain a mailing address and telephone number of a contact person or department. We regret that we are unable to publish all notices received. Notices also appear on the Journal's Web site (<http://www.nejm.org/meetings>). The listings can be viewed in their entirety or searched by location, month, or key word.
