

gies for targeting wild-type or mutant p53, IAPs, Hsp90, and the PI3K-AKT-mTOR pathway. The book emphasizes direct inducers of apoptosis and modulators of the apoptotic threshold that reinforce the response to radiation. In a nutshell, this excellent book on research in cell death is on the forefront of modern molecular oncology.

CORRECTIONS

A Proposal for Radical Changes in the Drug-Approval Process (August 10, 2006;355:618-23). In Figure 1, the label for the y axis should have read, "Deaths per 100,000 Population," not "Deaths per 100,00 Population," as printed. The figure has been corrected on the *Journal's* Web site at www.nejm.org.

Carotid-Artery Stenting — Case Open or Closed? (October 19, 2006;355:1726-9). On page 1727, in the 9th line of the second paragraph of the right column, the sentence should have read, "In the SAPPHERE trial, a single type of protection device (Angioguard) was used in all patients," not "(Accunet)," as printed.

The Severe Gout of Emperor Charles V (November 2, 2006;355:1935-6). In the authors' reply, Jaumeordi, M.D., of the Hospital Clínic d'Investigacions Biomèdiques August Pi i Sunyer, 08036 Barcelona, Spain, should have been included as an author. We regret the error.

NOTICES

Notices submitted for publication should contain a mailing address and telephone number of a contact person or department. We regret that we are unable to publish all notices received. Notices also appear on the Journal's Web site (www.nejm.org/meetings). The listings can be viewed in their entirety or searched by location, month, or key word

SOCIETY OF COMPUTED BODY TOMOGRAPHY & MAGNETIC RESONANCE

The "30th Annual Course" will be offered in Orlando, FL, March 5-9.
