

Conversely, there was room for further discussion of the subtype of autoimmune hepatitis in which antimitochondrial antibodies are present. This condition could have been presented as a good example of the difficulties clinicians and scientists face when interpreting results of tests for autoantibodies that are apparently highly specific. The term "autoimmune cholangitis" was introduced in the context of children with autoimmune hepatitis, in whom perhaps 50% will have a cholangiopathy, but the observations related to autoimmune cholangitis and pancreatitis associated with elevated IgG4 levels should have had a greater presence in this book. Similarly, the major advances in animal models of primary biliary cirrhosis are not featured in this book as prominently as they should be. Additionally, there could have been better coordination of the two chapters on drug injury to the liver. In the sections on alcohol and acute liver failure, the authors and editors appear to have struggled to appeal to both clinicians and scientists, and we were left feeling that these sections were not polished end products.

Aesthetically, the layout is traditional and uninspiring, and the publishers were parsimonious with the use of color — certain figures cannot be appreciated well in black and white. In summary, this book is a good attempt to provide broad coverage of liver immunology, but it doesn't quite meet the mark. At a time when the worldwide burden of chronic liver disease (and hepatocellular carcinoma in particular) continues to grow, this book would have been stronger if it had a more international outlook.

CORRECTION

Survival of Patients with Stage I Lung Cancer Detected on CT Screening (October 26, 2006;355:1763-71). The disclosure statement (page 1769) should have read as follows: "Drs. Henschke and Yankelevitz report receiving royalties from Cornell Research Foundation as inventors of methods to assess tumor growth and regression on imaging tests for which pending patents are held by Cornell Research Foundation and licensed to General Electric. No other potential conflict of interest relevant to this article was reported." The article has been corrected on the Journal's Web site at www.nejm.org.

NOTICES

Notices submitted for publication should contain a mailing address and telephone number of a contact person or department. We regret that we are unable to publish all notices received. Notices also appear on the Journal's Web site (www.nejm.org/meetings). The listings can be viewed in their entirety or searched by location, month, or key word.

CALL FOR APPLICATIONS

The American Society of Tropical Medicine and Hygiene is accepting applications for its "Robert E. Shope International Fellowship in Infectious Diseases," which provides financial support for a short-term research experience in the tropics. Deadline for submission is May 15.

Contact the American Society of Tropical Medicine and Hygiene, 111 Deer Lake Rd., Suite 100, Deerfield, IL 60015; or call (847) 480-9592; or fax (847) 480-9282; or see <http://www.astmh.org/funding/index.cfm>; or e-mail info@astmh.org.

JOEL AND BARBARA ALPERT LECTURE IN GENERAL PEDIATRICS

The lecture, entitled "Innovation and Experimentation in the Health Care System," will be held in Boston on May 29.

Contact Dr. Howard Bauchner, Boston University School of Medicine, 771 Albany St., Suite 3509, Boston, MA 02118; or call (617) 414-4232; or fax (617) 414-3679; or e-mail howard.bauchner@bmc.org.

MAYO CLINIC JACKSONVILLE

The following courses will be offered: "15th Annual Clinical Reviews and Primary Care Update 2008" (Amelia Island, FL, June 9–12); "The Jobs We Juggle! CME Planners Keeping CME in Motion" (Chicago, July 14 and 15); "18th Annual Hematology/Oncology Reviews" (Amelia Island, FL, Aug. 4–8); and "Multidisciplinary Update in Breast Disease" (Ponte Vedra Beach, FL, Nov. 13–15).

Contact Mayo Clinic, 4500 San Pablo Rd., Davis Bldg., 172W, Jacksonville, FL 32224; or call (800) 462-9633; or fax (904) 953-2954; or e-mail cme-jax@mayo.edu; or see <http://www.mayo.edu/cme>.

DERMATOPATHOLOGY: SELF-ASSESSMENT AND BOARD REVIEW

The course will be offered in Philadelphia, June 21 and 22. It is presented by the Division of Dermatopathology at the University of Pennsylvania School of Medicine.

Contact Susan Lamey, Dermatopathology Office, 2 Maloney Bldg., 3600 Spruce St., Philadelphia, PA 19104; or call (215) 662-4497; or fax (215) 349-5615; or e-mail susan.lamey@uphs.upenn.edu; or see <http://www.uphs.upenn.edu/dermatol/BoardReview/index.html>.

UNIVERSITY OF TORONTO

The following meetings will be held in Toronto: "34th Annual Toronto Thoracic Surgery" (June 6 and 7); "Toronto Breast Cancer Symposium 2008" (June 12 and 13); and "Cardiovascular Pathology: Current Concepts" (July 25–27).

Contact the Office of Continuing Education & Professional Development, Faculty of Medicine, University of Toronto, 500 University Ave., Suite 650, Toronto, ON M5G 1V7, Canada; or call (416) 978-2719 or (888) 512-8173; or fax (416) 946-7028; or e-mail ce.med@utoronto.ca; or see <http://www.cme.utoronto.ca>.
