

ion, including an assessment of the impact of the Internet. Especially thought provoking is Mark Cherry's consideration of the implications of adopting paid organ donation as public health policy.

Living Donor Organ Transplantation has much to recommend it. Its publication is timely, since the bylaws regulating UNOS living donation, requested by the Department of Health and Human Services, were adopted in September 2007. An excellent compendium of the state of transplantation from living donors, this book will be a valuable resource for the national network, transplant centers, referring physicians, and potential living donors. The composite bibliography from many noted transplant professionals is a treasure. Readers will save a lot of time searching in PubMed with this reference on their shelves.

CORRECTION

Acute Calculous Cholecystitis (June 26, 2008;358:2804-11). The second sentence in the Strategies and Evidence section, under Diagnosis (page 2805), should have read, "The pain is characteristically episodic, severe, and located in the epigastrium or right upper quadrant." In the same section, under Treatment (which begins on page 2806), the final word of the paragraph beginning "There were no deaths reported" (page 2807) should have been cholecystostomy (rather than cholecystectomy). We regret the errors. The article has been corrected at the *Journal's* Web site at www.nejm.org.

NOTICES

Notices submitted for publication should contain a mailing address and telephone number of a contact person or department. We regret that we are unable to publish all notices received. Notices also appear on the Journal's Web site (www.nejm.org/meetings). The listings can be viewed in their entirety or searched by location, month, or key word.

NATIONAL LYMPHEDEMA NETWORK

The 8th NLN International Conference, entitled "Lymphedema: Riding the Wave of Discovery," will be held in San Diego, CA, Aug. 27–31.

Contact Conference 2008 Secretariat, National Lymphedema Network, 1611 Telegraph Ave., Suite 1111, Oakland, CA 94612-2138; or e-mail 2008conf@lymphnet.org; or call (510) 208-3200 or (800) 541-3259; or fax (510) 208-3110; or e-mail 2008conf@lymphnet.org; or see <http://www.lymphnet.org>.
